EDUCATION

2012 - 2016
FIRST ASIA INSTITUTE OF TECHNOLOGY AND HUMANITIES

- Bachelor of Science in Computer Science

SKILLS

Automation & CRM

- n8n
- GoHighLevel

Frontend Development

- Angular (TypeScript)
- HTML5, CSS3, SCSS
- RESTful API Integration

Backend & Databases

- .NET (C# / ASP.NET)
- PostgreSQL
- MS SQL Server (MSSQL)

Testing & Tools

- Playwright (End-to-End Testing)
- Git
- Postman
- Swagger (API Documentation)

PROFILE

Frontend developer specializing in AngularJS and TypeScript, building user-friendly and scalable web applications. Experienced in RESTful APIs, PostgreSQL, MSSQL, automated testing with Playwright, and workflow automation using n8n to streamline business processes. Passionate about improving usability, efficiency, and system workflows through clean, maintainable code.

WORK EXPERIENCE

Angular Developer
2025 - PRESENT

Extend Resourcing

- Develop and maintain web applications using AngularJS and TypeScript, focusing on system usability, user interaction, and functional behavior over visual design.
- Write automated tests using Playwright to validate key user journeys and ensure reliability of critical system functions.
- Integrate RESTful APIs and handle data presentation logic, ensuring accurate and responsive frontend-backend communication.

.NET Developer
2024 - 2025

Mortgage House of Australia

- Focused on debugging, troubleshooting, and resolving backend issues in .NET applications to ensure system stability and performance.
- Maintained and improved existing codebase using C# and ASP.NET Core, applying fixes and performance optimizations as needed.
- Worked with MSSQL and PostgreSQL to troubleshoot data issues and support business-critical operations.

Production Engineer
2022 - 2023

Brother Industries Philippines

- Performed system and network troubleshooting to maintain application uptime and operational stability.
- Worked with MSSQL to diagnose data inconsistencies and optimize database performance.
- Assisted in system enhancements, testing, and deployment processes to improve reliability and efficiency.
